

DIY PROJECT:

EMC Security's Self-Install System

Do-It-Yourself (DIY) has become more than a hobby. With YouTube leading the way, the DIY trend has exploded into the tech industry – especially when it comes to home security.

It is easier than ever to protect your home and family with DIY-friendly wireless security devices.

The convenience of setting your own install date and the affordability makes this a very popular option.

EMC Security offers one of the industry's most advanced DIY security systems, manufactured by the world's leader, Honeywell. This system is the same system installed by EMC Security professionals. The only difference is you install it. We'll take care of the rest.

Best of all, the system comes with no contract monitoring and one of the industry's lowest monthly rates, starting at just \$16.95.

Call EMC Security today to learn more about the self-install system.

FAST FACTS

- Most recent industry rankings place EMC Security as the **15th largest residential security company in the country**
- Top single market service provider in the nation
- Monitored customers: **48,754**
- Average response time for 2016: **less than 14 seconds**

PROFESSIONALLY INSTALLED

ADVANTAGES

- EMC Security installs system
- Service technician explains the system, its functions and how to operate

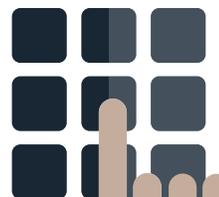

DISADVANTAGES

- Installation fees
- Must schedule appointment for technician to install

SELF-INSTALLED

ADVANTAGES

- No installation costs
- Install the system at your convenience
- Benefit from the same Honeywell technology that professional installers use
- No appointment scheduling
- It's portable—take the system when you move
- Wireless technology is the perfect hub for all your smart-home devices

DISADVANTAGES

- Self-taught installation methods
- Installation involves **your time** rather than a technician's

Walton Gas Means Business

Switch your business's natural gas account to Walton Gas for lower prices and quality service! Visit walgongas.com or call 770-267-2505 for pricing options.

gas up the stove

Chocolate Chip Cream Cheese Bars

2 rolls of chocolate chip cookie dough

3 eggs

1 cup sugar

2 (8 oz. packages) of cream cheese, softened

Heat oven to 350 degrees. Grease a 9-by-11-inch baking dish. Spread one roll of cookie dough on the bottom. Beat together eggs, sugar and cream cheese. Pour over cookie dough then crumble last roll of cookie dough on top and bake for 30 – 45 minutes or until cream cheese is firm. Cool completely.
