

Safety & Peace of Mind

Everyone wants to be independent. But sometimes living alone means there's no one to assist you in an emergency.

EMC Medical Alert is a simple, yet effective, alarm system designed specifically for people who may need assistance when they're unable to reach a phone. The system lets you call for help simply by pressing a button.

Our pendant is the smallest voice-to-voice emergency alert device available. At the press of a button, this easily worn device allows you to speak right through it to our local monitoring center.

WATER RESISTANT The pendant is water resistant, meaning that you don't have to take it off while in the shower. This is a particularly important feature considering that most home accidents take place in the bathroom.

BACK UP BATTERY EMC Medical Alert comes equipped with a back-up battery. If the power goes out in your home, rest assured that your medical alarm will continue to provide the protection you need.

GET POLICE, FIRE AND MEDICAL ASSISTANCE

EMC Medical Alert can be used in any situation where you need help. Whether you need the police, an ambulance, the fire department, or just to get in touch with a friend or family member for a little help, EMC Medical Alert is ready.

SPEAK DIRECTLY TO EMERGENCY OPERATORS

When you press the emergency button on your medical alert, you speak directly to the emergency call center operators and tell them exactly what kind of help you need.

MULTIPLE PENDANTS WITH ONE BASE UNIT

The EMC Medical Alert system allows for multiple pendants to be used with the same base unit. This means if there are multiple people in one house who require a medical alarm, you don't have to purchase multiple systems – you can just add another pendant.

Available anywhere in Georgia!

Budgets Love Levelized Billing

Levelized Billing allows residential customers to pay nearly the same amount on their bill each month, removing the month-to-month fluctuations caused by changing weather, changing energy use and other factors.

HOW IT WORKS

- Available to residential customers with favorable credit only.
- Monthly amount is based on your energy use for the last 12 months.
- The amount paid each month will not be exactly the same each month, but won't vary by more than a few dollars.
- You still pay for all of the energy you use, but the payment totals are spread throughout the year.

gas up the stove

Chocolate Covered Strawberries

- 1 pint strawberries
- ½ cup semisweet milk chocolate or white chocolate chips
- 1 teaspoon shortening or coconut oil

Featured recipes are not independently tested, so we must depend on the accuracy of the cooks sending them. Always use safe food handling, preparation and cooking procedures from the recognized experts.

Rinse strawberries and pat dry. Line a sheet pan with wax paper. Melt chips and oil over low heat or in the microwave, stirring frequently. Dip strawberry into chocolate mixture allowing the excess to run back into the bowl.

Repeat...repeat...repeat. For variety, add sprinkles or chopped nuts. Chill strawberries in the refrigerator for 30 minutes.

Enter your recipe! The month's best entry will appear in the *Gazette* and receive a free cookbook.
